Question: 1

Which protocols must be enabled on the network to support HCP S-Series installation and operation?
Response:

A. SNMP and SMTP
B. HTTP and HTTPS
C. NFS and iSCSI
D. SMB and FTP

Answer: B

Question: 2

Which of the following best describes the reason for performing regular software upgrades on HCP G10 and G11 nodes?
Response:

A. To ensure the system benefits from the latest security patches and features.
B. To expand the storage capacity automatically.
C. To comply with international data protection regulations.
D. To change the system's time zone settings.

Answer: A

Question: 3

HCP supports integration with which of the following?
(Choose two)
Response:

A. Public cloud services like AWS and Azure
B. Private blockchain networks
C. Traditional NAS systems for file services
D. Custom mobile applications via REST API

Answer: A,D

Question: 4

When installing HCP in a VMware environment, which virtual network adapter is recommended for optimal performance?
Response:

A. E1000
B. E1000e
C. VMXNET 3
D. Flexible

Answer: C

Question: 5

For HCP storage configuration, what are key considerations?
(Choose two)
Response:

A. Maximum number of namespaces
B. Data tiering policies
C. Block size for storage volumes
D. Type of data encryption

Answer: A,B

Question: 6

Both G10 and G11 nodes support SSDs for caching to enhance performance, but only the G11 offers _____ for data at rest.
Response:

A. Encryption
B. Compression
C. Deduplication
D. Blockchain verification

Answer: B

Question: 7

In configuring HCP for optimal performance, what role does the choice of storage media play in S-Series nodes?
(Choose Three).
Response:

A. It determines the speed of data deduplication.
B. It affects the overall system latency.
C. It influences the power consumption of the node.
D. It dictates the network throughput.

Answer: A,B,C

Question: 8

Which of the following are critical post-installation steps for HCP S-Series nodes?
(Choose three)
Response:

A. Performing a full system backup
B. Configuring data replication policies
C. Verifying network connectivity
D. Setting up user accounts and permissions

Answer: B,C,D

Question: 9

For effective HCP network and storage configuration, which practices are recommended?
(Choose two)
Response:

A. Regularly reviewing and adjusting data tiering policies based on usage
B. Isolating management traffic from user data traffic
C. Using a single large namespace for all data types
D. Static IP addressing for all nodes without DHCP

Answer: A,B

Question: 10

How does the redundancy of power supplies vary across the S10, S30, S11, and S31 nodes?

Response:

A. Only the S31 offers dual redundant power supplies.

B. S11 and S31 feature redundant power supplies, unlike S10 and S30.

C. All nodes offer redundant power supplies as a standard feature.

D. Redundant power supplies are optional for all nodes.

Answer: B
