Revenues and Payments

Question: 1

You want to use billing for a customer project.

Which customizing object controls the billing of sales order items?

- A. Requirements class
- B. Schedule line category
- C. Requirements type
- D. Item category

Answer: D

Revenues and Payments

Question: 2

You used hierarchical revenue planning to plan revenues for WBS elements manually. The cost element report for planned revenues does not show any revenues at all.

What is the reason for this?

- A. The manual hierarchical revenue planning will be displayed only if expert mode is activated.
- B. Cost element reports display integrated planning only.
- C. Cost element reports can display costs but not revenues.
- D. The manual hierarchical revenue planning has no reference to cost elements.

Answer: D

Revenues and Payments

Question: 3

Which statements describe planned and actual revenue for WBS elements? Note: There are 2 correct answers to this question.

- A. Actual revenue is posted via a billing plan assigned to a WBS element.
- B. Planned revenue requires a sales order assigned to a WBS element.
- C. Planned revenue can be transferred from a sales quotation.
- D. Actual revenue is posted via a billing document created from a sales order.

Answer: C, D

Revenues and Payments

Question: 4

Which sales documents can update planned revenues on WBS elements? Note: There are 2 correct answers to this question.

- A. Sales order
- B. Inquiry
- C. Billing
