Question: 1

SAP Analytics Cloud includes Enterprise Planning, Augmented Analytics, Enterprise Platform Services, and Business Intelligence.
Choose the correct answer.

A. True
B. False

Answer: A

Explanation:
SAP Analytics Cloud (SAC) is an all-in-one cloud analytics solution that provides:
• Enterprise Planning – Budgeting, forecasting, and financial planning
• Augmented Analytics – AI/ML-based insights, smart discovery, predictive analytics
• Enterprise Platform Services – Data modeling, governance, and APIs
• Business Intelligence (BI) – Dashboards, reporting, and visualization
• All four areas are indeed part of SAP Analytics Cloud.

Question: 2

What is SAP Business Data Cloud?
Choose the correct answer.

A. A data platform that harmonizes data from SAP and non SAP sources into a unified semantic layer.
B. A network of connected trading partners for sharing business data.
C. A development platform to create data-driven applications using AI technologies.

Answer: A

Explanation:
SAP Business Data Cloud provides:
• Integration and harmonization of SAP and non-SAP data
• A unified semantic layer for analytics, reporting, and planning
• Data quality, consistency, and accessibility

Question: 3

You want to use the embedded help function in SAP Analytics Cloud to support you. What is offered by the embedded help?
There are two correct answers.

A. Guided help tutorials
B. Live chat with experts
C. Videos
D. Chatbot

Answer: A,C

Explanation:
Embedded help provides:
• Step-by-step tutorials (Guided help tutorials)
• Instructional videos for guidance (Videos)

Question: 4

When you are scheduling, to how many non-SAP Analytics Cloud recipients can you distribute?
Choose the correct answer.

A. 100
B. 3
C. 33

Answer: B

Explanation:
• SAP Analytics Cloud restricts distribution of scheduled publications to external (non-SAC) recipients to 3 people.
• Internal recipients can be more, but external is limited.

Question: 5

When scheduling a publication, what are two possible file type options that can you select?
There are two correct answers.

A. .pdf
B. .pptx
C. .zip
D. .txt

Answer: A,B

Explanation:
Stories can be exported in:
• PDF
• PowerPoint (.pptx)

Question: 6

Which of the following can you review and configure in the Add to Metrics List dialog?
There are three correct answers.

A. Chart Visualization Details
B. Data Card Details
C. Filters
D. Smart Insights

Answer: A,B,C

Explanation:
The Add to Metrics List dialog allows you to configure:
• Chart visualization settings
• Data card details
• Filters applied to metrics

Question: 7

In the SAP Analytics Cloud Catalog, what access do you have to the files?
Choose the correct answer.

A. Read/Write
B. Edit
C. View

Answer: C

Explanation:
The Catalog in SAC is a read-only view of available stories, models, and files. You can browse and view, but cannot edit them directly.

Question: 8

You use Data Analyzer for a quick analysis of data, and you save your analysis results. What is the file type?
Choose the correct answer.

A. Insight
B. Application
C. Table

Answer: A

Explanation:
• In SAP Analytics Cloud, Data Analyzer lets you explore data and save your analysis results.
• These saved results are called Insights (file type .story insight).

Question: 9

What are the data sources for Data Analyzer?
There are four correct answers.

A. SAP BW Queries
B. SAP HANA Live Views
C. SAP Datasphere
D. CSV files
E. Microsoft Excel files
F. SAP Analytics Cloud Models

Answer: A,B,C,F

Explanation:
Data Analyzer supports live and imported data from multiple SAP sources:
• SAP BW Queries – Live BW queries
• SAP HANA Live Views – Real-time HANA data
• SAP Datasphere – Cloud data platform
• SAC Models – Models built or imported in SAC

Question: 10

In SAP Analytics Cloud you use an import connection to an SAP ERP system. Your colleague says that no data is stored in SAP Analytics Cloud. Is the statement of your colleague true or false?
Choose the correct answer.

A. True
B. False

Answer: B

Explanation:
With an import connection, data is actually imported and stored in SAP Analytics Cloud.
