## Question: 1

Which activities are explicitly part of VCF capacity-growth forecasting in the published blueprint?  
(Select all that apply.)

- A. Add or remove HCI hosts from within a VCF Private Cloud
- B. Migrate workloads to or from a VMware Cloud
- C. Migrate workloads to or from a Public Cloud
- D. Commit multiple What-If scenarios
- E. Configure Role-Based Access Control

**Answer: A,B,C,D**

## Question: 2

An architect is reviewing why an internal service consumer sees one value while the provider tracks a different underlying infrastructure value. Which conceptual distinction should be clarified first?

- A. Provider/Consumer and Cost vs Price
- B. Allocation vs Demand
- C. Managed Telegraf vs Open Source Telegraf
- D. Business Intent vs Operational Intent

**Answer: A**

## Question: 3

Which two tasks are explicitly included under application monitoring in the published blueprint?  
(Choose two correct answers.)

- A. Manage passwords using Password Management
- B. Configure the Managed Telegraf agent to monitor application metrics
- C. Configure Chargeback
- D. Monitor VCF Compliance using Compliance Benchmarks
- E. Deploy the Managed Telegraf Agent

**Answer: B,E**

### Question: 4

A team wants to reduce waste caused by snapshots consuming capacity long after their operational purpose has ended. Which process should be checked first?

- A. Reclaim resources from orphaned disks
- B. Reclaim resources from idle Virtual Machines
- C. Configure advanced capacity management features
- D. Reclaim resources from Virtual Machine snapshots

**Answer: D**

### Question: 5

Which two actions are explicitly part of the rightsizing scope rather than the reclamation scope?  
(Choose two correct answers.)

- A. Exclude Virtual Machines from rightsizing
- B. Configure VCF Operations Policy settings for rightsizing
- C. Reclaim resources from orphaned disks
- D. Reclaim resources from snapshots
- E. Reclaim resources from idle Virtual Machines

**Answer: A,B**

### Question: 6

After a fleet lifecycle change, administrators report that trust relationships for platform services are no longer behaving as expected, while passwords and RBAC settings appear unchanged. Which task should be reviewed first?

- A. Manage passwords using Password Management
- B. Manage SSL Certificates using Certificate Management
- C. Create a Business Application
- D. Configure a notification

**Answer: B**

### Question: 7

Which tasks are explicitly part of the advanced capacity-management scope in the published objective?  
(Select all that apply.)

- A. Configure a job/task within Automation Central
- B. Create a custom dashboard
- C. Configure advanced capacity management features
- D. Identify the process steps to configure the allocation capacity model
- E. Identify the process steps to create a custom profile

**Answer: C,D,E**

### Question: 8

An engineer needs to automate a recurring operational action from inside the platform rather than perform it manually each week. Which Day 2 feature is most directly aligned?

- A. Custom Dashboard
- B. Management Pack Builder
- C. Automation Central job/task
- D. Cost Driver editor

**Answer: C**

### Question: 9

Which two tasks are explicitly included under Cost Management in VCF Operations?  
(Choose two correct answers.)

- A. Change currency settings
- B. Create a Business Application
- C. Configure Unified Cloud Proxies
- D. Update cost drivers
- E. Manage dashboards in VCF Operations for logs

**Answer: A,D**

### Question: 10

During the "Validation" phase of a VCF bring-up, the VCF Installer Appliance reports a "Critical Error" regarding Network Connectivity.

# Validation Report

Task: Validate ESXi Hosts

Status: Failed

Error: "Host sfo-m01-esx01.corp.local cannot resolve vCenter FQDN sfo-m01-vc01.corp.local."

Which built-in capability of the VCF Installer Appliance should the engineer use to deep-dive into this error and collect diagnostic bundles?

- A. The "vCenter Support Assistant" plugin.
- B. The "Host Client" UI on the ESXi host.
- C. The "SoS" (Supportability and Serviceability) utility via SS
- D. The "Aria Operations for Logs" agent.

**Answer: C**
