## Question: 1

Which statement is true about the relationship between supplier users and supplier items?  
Response:

- A. Item access to supplier users can be managed at the item level by using the Manage Items page.
- B. Access to supplier items can be maintained only at the OIM level.
- C. You cannot restrict item access at the supplier user level.
- D. Item access to supplier users can be managed at the item level by using the Manage Supplier User page.

**Answer: D**

## Question: 2

Observe the Mobile Phones item class in the hierarchy shown. You are unable to perform add and remove actions for one of the security configuration rows under the Item Class People section.

Identify the cause for this behavior.  
Response:

- A. The selected configuration row is inherited from the Gadgets or Electronics item class.
- B. Item class security configurations cannot be modified at all.

- C. Item class security configurations can be modified only in Security Console.
- D. The item class security configuration is locked for the Mobile Phones item class.
- E. The item class security configuration cannot be modified because items already exist under the Mobile Phones item class.

**Answer: A**

### Question: 3
