Answer: C

Explanation:
Step 2: Refine Backlog During each iteration, the team will hold refinement sessions to further detail the requirements in the remaining backlog. The Team Lead ensures this meeting takes place to make sure

the backlog contains the target of "2 Sprints worth of User Stories in the backlog" at the start of the upcoming new Sprint.
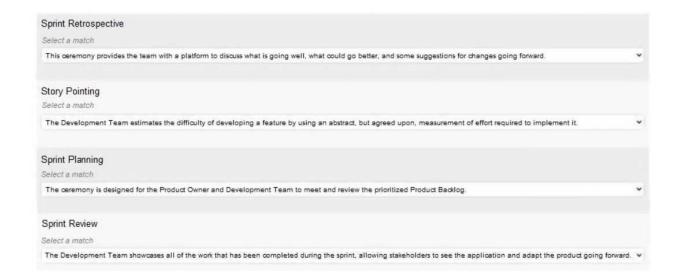

Question: 4

HOTSPOT
Match each sprint ceremony to its appropriate objective. Each objective may be used once, more than once, or not at all.

Sprint Retrospective

Select a match

▼

The ceremony is designed for the Product Owner and Development Team to meet and review the prioritized Product Backlog.
The Development Team showcases all of the work that has been completed during the sprint, allowing stakeholders to see the application and adapt the product going forward.
This ceremony provides the team with a platform to discuss what is going well, what could go better, and some suggestions for changes going forward.
The Development Team estimates the difficulty of developing a feature by using an abstract, but agreed upon, measurement of effort required to implement it.
