Question: 7

Here are the procedures established by the police department of a large city for dealing with snow emergencies:

After being notified by the City Manager that an official snow emergency has been declared, Emergency Communications Center (ECC) will record the time the notification was received, and will then inform the Patrol Bureau Commander, or their designated substitute, and all police units by radio and teletype, that an official snow emergency is in effect.

ECC will then inform the city's Director of Communications, who will become the official spokesperson and media liaison for the city for the duration of the snow emergency.

ECC will then inform newspapers, radio stations, and television stations, via email and voicemail, that a snow emergency has been declared. They will also post this information on various forms of social media.

ECC will notify the on-duty Traffic Unit supervisor of the snow emergency, who will become the snow emergency vehicle removal detail supervisor.

Finally, ECC will request two wreckers from the rotation list for each District be deployed to the Public Services Garage, at a time determined by the Public Services Department.

In which of these sequences is the step in which citizens would be able to read the official snow emergency declaration on Face book in the correct spot in the sequence?

- A. 1, 2, 4, 5, 3
- B. 2, 4, 5, 3, 1
- C. 5, 1, 3, 2, 4
- D. 4, 3, 2, 1, 5

Answer: C

Explanation:

Step 3 says that the ECC will post the declaration on social media. Answer choice C is the only answer choice which has Step 3 in the third position.

Question: 8

A Spontaneous Alert will be initiated when a riot or other civil unrest breaks out unexpectedly.

In the event of a Spontaneous Alert, Emergency Command Center will:

1. In the Computer Dispatch System (CDS) display, highlight each Hostile Area as reports of hostilities come in.
2. Notify all non-essential personnel on the Spontaneous Alert notification list.
3. Dispatch cars to a Hostile Area only when requested by the Officer-in-Charge of that Hostile Area.
4. Notify all essential personnel in all sections, districts, and units, using both radio and teletype, that a Spontaneous Alert is in effect.
5. Order all officers on routine runs to cancel their runs and await further instructions.

Which of these shows the correct order of the above procedures?

- A. 4, 2, 5, 1, 3
- B. 5, 4, 2, 1, 3
- C. 3, 4, 1, 2, 5
- D. 1, 4, 2, 3, 5

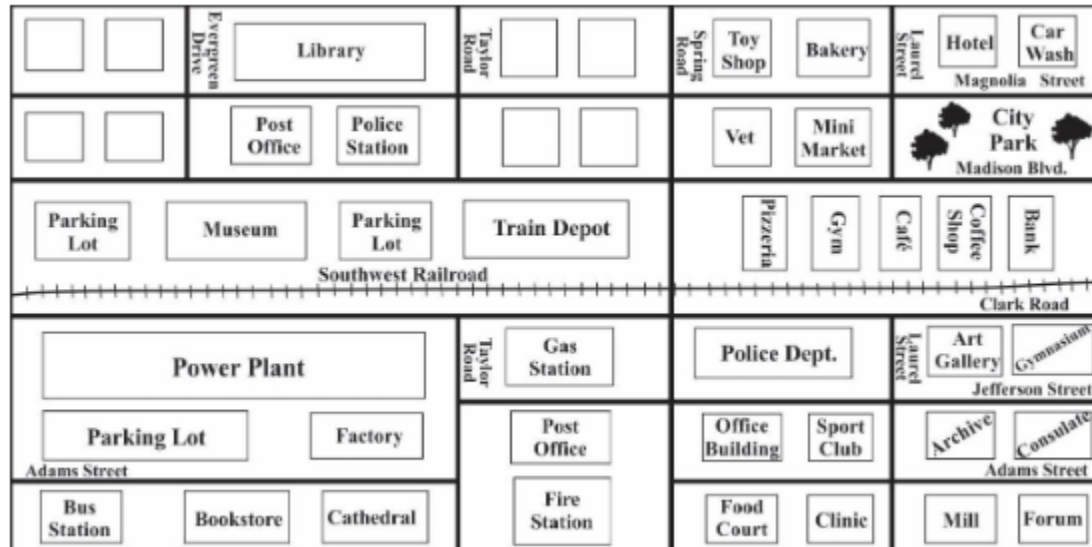

Answer: A

Explanation:

The correct order is 1,3,4) Notify all essential personnel in all sections, districts, and units, using both radio and teletype, that a Spontaneous Alert is in effect. 2) Notify all non-essential personnel on the Spontaneous Alert notification list. 5) Order all officers on routine runs to cancel their runs and await further instructions. 1) In the Computer Dispatch System (CDS) display, highlight each Hostile Area as reports of hostilities come in. 3) Dispatch cars to a Hostile Area only when requested by the Officer-in-Charge of that Hostile Area.

Question: 9

Officer Chavez is between the hotel and the car wash when he is dispatched to investigate a car accident in front of the parking lot of the power plant. Which of these would be the shortest route between the hotel and the power plant parking lot?

- A. Drive south on Spring Road, west on Jefferson Street, south on Taylor Road, and west on Adams Street.
- B. Drive west on Clark Road, south on Laurel Street, east on Jefferson Street, south on Spring Road, and east on Adams Street,
- C. Drive west on Magnolia Street, south on Taylor Road, east on Madison Boulevard, south on Spring Road, west on Jefferson Street, south on Taylor Road, and west on Adams Street.
- D. Drive west on Magnolia Street, south on Spring Road, west on Clark Road, south on Taylor Road, and west on Adams Street.

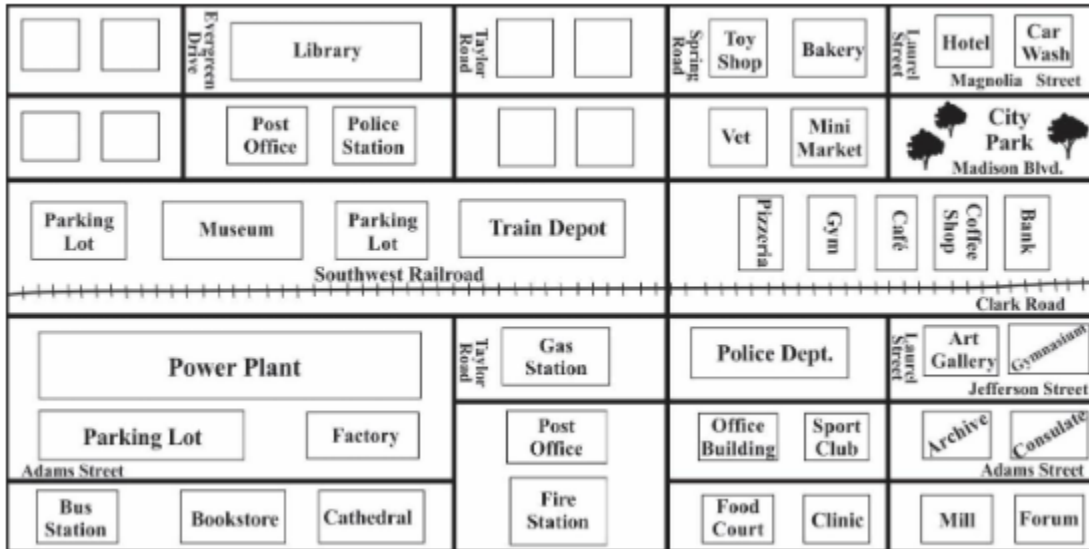

Answer: D

Explanation:

Drive west on Magnolia Street, south on Spring Road, west on Clark Road, south on Taylor Road, and west on Adams Street. A is incorrect because the first step is to drive south on Spring Road, and since Officer Chavez is on Magnolia Street, two intersections down from Spring, it's impossible for that to be the first step. B is wrong for the same reason—the first step is driving west on Clark Road, which is impossible, because Officer Chavez's first action can only be to drive east or west on Magnolia Street. C is wrong because after driving west on Magnolia, the next steps are to drive south on Taylor Road, east on Madison Boulevard, and South on Spring Road. But this is unnecessary and involves too much travel, as Spring Road comes before Taylor Road when you're traveling west on Magnolia, and Officer Chavez should simply go South on Spring Road instead of traveling too far and then doubling back.

Question: 10

Officer Randall is at the Post Office that is one block south of the library, and needs to get to the art gallery to investigate a break-in. Which of these would be the shortest route between the Post Office and the art gallery?

- A. Drive north on Taylor Road, east on Magnolia Street, south on Spring Road, and east on Jefferson Street.
- B. Drive west on Jefferson Street, north on Spring Road, and west on Madison Boulevard.
- C. Drive east on Madison Boulevard, south on Spring Road, and east on Jefferson Street.
- D. Drive east on Madison Boulevard, south on Spring Road, and east on Adams Street.

Answer: C

Explanation:

Drive east on Madison Boulevard, south on Spring Road, and east on Jefferson Street. A is wrong because the first step is driving north, and the art gallery is south of the Post Office and library. B is incorrect because the first step is driving west, and the art gallery is east of the Post Office and library. D is wrong because it involves turning east on Adams Street from Spring Road, but you can only go west on Adams from Spring Road, and Adams is a block south of the Art Gallery on Jefferson, so that would involve even more unnecessary travel.
