Latest Version: 6.0

Question: 1

You are modeling a system with specific bandwidth and latency requirements. Which viewpoint best captures this?

Response:

- A. Parameters Viewpoint
- B. Projects Viewpoint
- C. Standards Viewpoint
- D. Personnel Viewpoint

Answer: A

Question: 2

What are two outputs typically generated from the Actual Resources Viewpoint?

(Choose two)

Response:

- A. Actual system configurations
- B. Resource allocation plans
- C. Capability goals
- D. Instantiated components

Answer: A,D

Question: 3

Which view specification is essential for aligning operational activities with strategic goals?

Response:

- A. Resources Viewpoint
- B. Architecture Management Viewpoint
- C. Strategic Viewpoint
- D. Personnel Viewpoint

Answer: C

Question: 4

A modeler needs to document the mapping between resources and their responsible actors. Which viewpoint provides this mapping?

Response:

- A. Resources Viewpoint
- B. Personnel Viewpoint
- C. Operational Viewpoint
- D. Strategic Viewpoint

Answer: B

Question: 5

How does the "Traceability" column in the UAF Grid support modeling?

Response:

- A. By identifying policy compliance rules
- B. By enforcing interface consistency
- C. By mapping relationships across different views
- D. By controlling service access

Answer: C

Question: 6

How does the Security Viewpoint support enterprise architecture modeling in UAF?

Response:

- A. By defining compliance metrics for cloud infrastructure
- B. By modeling protective measures and security policies
- C. By assigning encryption keys to each data flow
- D. By limiting access to service endpoints

Answer: B

Question: 7

Why is the use of formal metamodels important in UAF traceability?

Response:

- A. They simplify code deployment
- B. They enforce diagram aesthetics
- C. They define valid relationships and enforce structural rules
- D. They enable 3D visualizations

Answer: C

Question: 8

In the Personnel Viewpoint, what element links organizational structures to operational behavior?

Response:

- A. Service contract
- B. Role assignment
- C. Technical metric
- D. Standard interface

Answer: B

Question: 9

In what two ways does the Services Viewpoint contribute to UAF modeling?

(Choose two)

Response:

- A. Capturing dynamic security behavior
- B. Defining interfaces and service-level agreements
- C. Modeling service contracts between providers and consumers
- D. Managing data encryption policies

Answer: B,C

Question: 10

When applying behavior representations in UAF, which type of model element is emphasized?

Response:

- A. Time-based execution and task flow
- B. Static hardware mappings
- C. Service-level encryption

D. Project procurement timelines

Answer: A
